MIAMI 42, FLORIDA

RAILWAY EXPRESS RATES REDUCED 25%

We are pleased to advise that the Railway Express Agency has issued EXPRESS RATES equal to SECOND CLASS rates on PLANTS, ESTABLISHED IN SOIL, FROM FLORIDA to all parts in the USA.

The new rate adjustment became effective last year in July 1955 and has given all our customers considerable savings on their shipments.

Again, we offer to the Florist's trade this wide selection of fine ornamental foliage plants which are ideally suited for interior decoration in homes, clubs, restaurants, etc.

We hope that you will take time to look through this price list, as we believe it will help you to further expand your business in the sale of the ever-increasingly popular foliage plants.

In addition to the plants listed, we grow many other selected types of ornamentals but only in small quantities, therefore, perhaps we have that "special" plant you are looking for, so please write us.

You may count on us for assistance in making suggestions for interior planting jobs or to help you with any plant problems you may have.

Your order will have our usual careful attention, and we feel certain you will be well satisfied with your purchases.

A purchase order blank is enclosed with this list for your convenience.

WE INVITE YOUR CORRESPONDENCE

BROMELIADS

We have greatly increased our stock of this very interesting group of plants. We have done so because during the past couple of years these plants have been so well received by our customers after they experienced their merits. The plants are closely allied to the Pineapples; they have heavy foliage with a wide variation of colors and do not need a great deal of light, as a matter of fact, they survive in conditions not suitable for other plants. We suggest that you order a few and have something different to offer your customers. If you are not familiar with the species we will be glad to make a selection for you.

We have small size plants of Bromeliads to offer that can be used in Dish Gardens or be grown on in larger specimens. Write us about your needs.
